INVITATION AND PROGRAMME

INVITATION

Dear Colleague

We are pleased to announce the eighth British Hypertension Society Clinical Education Meeting for Primary Care: *Cardiovascular Risk - Changing the Landscape*, which will be held at the Royal College of Physicians of Edinburgh, on Wednesday 14th November 2007.

In June 2006 NICE and the British Hypertension Society published joint revision of our guidance, our unified goals a guideline based on the latest evidence which will help doctors to meet the continuing cardiovascular disease challenge.

The British Hypertension Society has developed an educational programme to support best practice and successful implementation of evidence-based management and guidelines. Over 900 General Practitioners, Primary Care Cardiovascular Leads and Lead Pharmacists have attended these meetings. For this meeting we have constructed a programme based on feedback from previous meetings to consider reducing blood pressure and lifestyle measures, practical assessment of hypertensives, managing ischaemic heart disease, preventing diabetes, combining anti-hypertensives and lipid lowering. To make the NICE/BHS guidelines as practical as possible, we will include a novel case based application of the guidelines to illustrate how they might work in practice and focusing upon challenges of getting to target.

The meeting is primarily aimed at Primary Care Trust GP leads in CHD, diabetes and stroke, as well as Primary Care Pharmacists and Supplementary Prescribers in cardiovascular risk.

Dinner and accommodation is available on Tuesday 13th November 2007 at the George Hotel, Edinburgh.

We wish to thank our sponsors Boehringer Ingelheim Ltd., Bristol-Myers Squibb Pharmaceuticals Ltd. / sanofi-aventis Ltd., Merck Sharp & Dohme Ltd., Novartis Pharmaceuticals UK Ltd. and Pfizer Ltd. for providing educational grants towards the cost of the meeting.

We hope that you will take the opportunity to join us at the meeting and look forward to seeing you there.
